Your *\$399 Quality Residential or Office Alarm System - Fully Installed

General Information

We can supply and install a Bosch Residential Alarm System from as low as \$399 initial cost which is based upon a 36 month monitoring agreement. You pay only \$399 for the alarm system provided you take the [back to base monitoring](#) at the low rate of only \$33.00 per month.

This works in a similar fashion to some phone service providers when purchasing a mobile phone. The initial price is subsidised on the basis of you taking the alarm system [monitoring](#). The usual price for a non monitored system is \$1099.00 thus you save \$700.00 when you add the benefits of a fully monitored system.

Monitoring gives you the peace of mind knowing everything at home is OK. In an alarm event, you will be contacted or one of your nominated contacts will be contacted in your absence. While you are away, the **emergency response centre** is watching. Also, you have immediate access to emergency services via the alarm code pad or optional remotes or panic buttons via the 24 hour **emergency response centre**. Your Emergency signal is interpreted at the **emergency response centre** and the appropriate action is taken subject to your prior instructions.

This \$399 Alarm System includes two dual element infrared detectors, code pad, internal siren, external siren, blue strobe light, power supply, back up battery and full installation. **This system is ideal for homes, units & offices or small shops where two dual element infrared detectors are adequate.** For small business alarms, [click here](#).

This system could also suit some offices premises and some small business premises.

* Total price over 36 months is \$399 inc GST + monitoring (36 x \$33 inc GST) = \$1,587 inc GST.

ADDITIONAL SECURITY COMPONENTS

To calculate the likely cost to install a security system into your home, add the extra component cost to the base price of \$399.00. For business premises, please see our [business quote page](#).

We have a number of links below including a [guide for single level homes](#) and a link to a [guide for a typical 2 level home](#). These links will give you information on equipment and prices.

Simply print out the appropriate sheet and give me a call on **1300 799 200** and I can discuss a quote with you over the phone. Please keep in mind, that in most cases, only by an onsite inspection can I advise you of your best security options.

If you are familiar with alarm systems, you may know exactly what you require. If so, please call me anyway and I can confirm installation timing and any other queries you may have. If living outside South East Queensland, I can mail you the appropriate documents for signature and return.

[Please mail me for any enquiries](#) or phone me Bob Pearce on **0408 799 200** or **1300 799 200**
